

Instruction Sheet For Using Wallpaper Images

1. Click on the wallpaper image to be downloaded.
2. For PCs: With your cursor over the image, click your right mouse button and choose "Set image as background."
For MACs without a right mouse button: With your cursor over the image, hold down the Control Key and click your mouse button and choose "Use image as desktop picture."

HELPFUL HINTS

1. Repeat steps above to change the wallpaper image. At any time, you can go through your desktop control panel and reset your desktop to a solid color or default theme.
